

UK SEMICONDUCTORS CONFERENCE 2013

July 3rd and 4th

[NEW VENUE](#)

Conference 21 at
Sheffield Hallam
University

IOP Institute of Physics

*“ THE PRIMARY EVENT FOR SHOWCASING SEMICONDUCTOR
RESEARCH IN THE UK ”*

CONFERENCE

2012 was our most successful conference yet. 28 different countries were represented and 25 UK Universities and companies were in attendance.

- 150 abstracts
- 7 invited talks
- 76 contributed talks
- 67 poster presentations

2013 Symposia

A - Physics in Semiconductors
B - Optical Devices
C - Electronic Devices
D - Semiconductor Nanostructures
E - Mid-IR and THz Devices
F - Organic and Organic-Inorganic Hybrid Semiconductors
G - Wide Band-Gap Semiconductors (incl. III-Nitrides)

EXHIBITION

For 2012 we had 20 exhibitors and sponsors including,

Agilent Tech., Cambridge Chemicals, EPSRC National III-V Centre, IEEE, IOP, Guardline tech., JP Kummer, Kurt J. Lesker, Lambda Photometrics, Loomis Industries, LOT Oriel Ltd, Luceta, Optocap, Oxford Instruments, Phoenix software, RTA Instruments, Semicore, VEECO, Wafer Tech.

2013 - Improved exhibition location within the refreshment and reception areas

VENUE

Due to increasing delegate numbers and exhibitors we have moved to a new venue for 2013.

- Located at the center of Sheffield next to the main bus and train stations.
- Larger exhibition area at the heart of the conference.
- Excellent lecture theatres
- Wireless internet

please visit our website

www.uksemiconductors.com

2013 PLENARY LECTURES (confirmed)

- **Prof. Stephen Forrest** - University of Michigan
- **Pascale Senellart**, LPN-CNRS, France
- **Lucia Sorba**, Istituto Nanoscienze-CNR, Pisa, Italy
- **Rüdiger Quay**, Fraunhofer Institute of Applied Solid-State Physics, Germany

WORKSHOPS & EVENTS COINCIDING WITH UKS2013

- 1st-2nd July - OFET training (info@ossila.com)
